ARKADIA

RUSSIAN EXPORT CENTER

EXIAR

EXIMBANK OF RUSSIA

Cosmetics “Arkadia” are Russian professional cosmetics with the European approach designed to meet the needs of modern women.

- “Laboratory of Cosmetics “Arkadia” is a scientific and production laboratory on the basis of which the full production cycle from concept and development to production and sale of finished products are carried on. Location: St. Petersburg. Year of foundation: 2000.
- “Laboratory of Cosmetics “Arkadia” is our own production conformed to the requirements of Technological regulation, Customs Union and created with the GMP standards for cosmetic production.
- We use the latest achievements of world science. The main developer is the company president Ph.D. Elena Korobkova who is in science for over 30 years. In 1998 Elena took a business internship in the cosmetics development field by the invitation of the US Commerce Department and the Institute of Standards (NIST) in a group of specialists from Russia and CIS countries. In 2014 the developments of “Arkadia” were highly appreciated by experts and professors of London College of Fashion (LCF) which has a worldwide reputation as a leader of teaching, research and consulting in beauty industry. The chief methodologist is CEO Arapova Polina O. who is dermatologist and cosmetologist with 15 years of experience, the right holder of a number of the author’s procedures.

- Cosmetics “Arkadia” is the first and the unique cosmetic products which use membrane lipids as emulsifiers of all cream bases. Such peerless bases allow embodying the brand ideology: self-healing and self-regulation of the skin. Cosmetics originally were designed for sensitive skin. Structural compatible with skin lipids the membrane lipids regenerate the protective barrier by embedding into the damaged areas and normalizing skin condition.

- The range of our active ingredients is so wide that we are organically fit into any of the categories: nano, peptide or eco cosmetics. Unique anhydrous basis developed in our laboratory allows using the components in the native state. This development is peerless even for the world market.

In our work we use a wide range of active substances such as titrated plant extracts proven action, regulatory peptides, soft immunomodulators, co-enzymes, hyaluronic and AHA acids, retinol and other vitamins. Depend on problems to be solved the specific set of active ingredients induces the production of missing substances directly into the skin. It promotes self-regulation processes of the skin and regeneration its functioning like in young age.

skin care lab.
ARKADIA

- At present there are more than 200 cosmetic products of the company’s arsenal, it allow solving any problem of cosmetologists. The line for domestic use is more than 60 products for all ages and skin types.

- Our awards: 2000 – “The Best line of the year” for the “Lady N” line and “Best packing design”. 2002 – The winner of the “100 best Russian products”. 2003 – The title of winner of “Made in Saint Petersburg” and gold medal “Environment friendly and safe products”. 2013 – The winner of the National Award “My cosmetics” in “Alliance of beauty and science” nomination by cream «UpGrade 40+».

- The company appreciates close cooperations with cosmetologists. Our specialists work in the feedback mode. You with us become participants of cosmetics creative process. Training confirmed by certificates, flexible system of discounts, samples and printed materials are all for you.

- There are more than 55 regional offices and training centers in Russia, Belarus, Ukraine, Kazakhstan, Uzbekistan and the Baltic States. On the basis of company branches the leading experts regularly conduct training seminars. It is provided training by the webinars for cities where not Arkadia representation.

Cleansing by skin type

PRIME Cleansing Milk for Sensitive Skin

Soft and careful cleansing. Gives nourishment and enhances skin regeneration. Leaves no oily film.

- Membrane lipids and wheat germ oil restore the resistance barrier, soothe hypersensitive skin, and balance the skin.

- β -1,3-glucan enhances natural resistance properties. Calendula extract soothes skin and prevents inflammation.

Your cleansed and soothed skin looks gorgeous.

PRIME Cleansing Milk

Intended for thin and delicate skin and eye skin.

- Removes makeup gently and easily.

- Restores the natural hydration level of your skin. Contains special new-age components, which meet the standards of eco cosmetics.

The milk is perfect even for sensitive skin.

PRIME Facial Cleansing Gel

Softly and intensely cleanses the skin. If you like washing with soap foam, this gel is ideal for you. It doesn't dry or tighten your skin.

A botanical extract complex of camomile, licorice and wheat proteins has soothing and regenerating effect.

Lecithin enhances protective barrier of skin and prevents unpleasant tightening sensation.

Your cleansed and soothed skin looks healthy and radiant.

Oily Home Foaming Face Wash

Intense skin cleansing from dirt, make-up and secretions of sebaceous gland minimizes pores without leaving a tightening feeling on your face, and helps reduce pimples (acne).

- A combination of vegetable proteins balances the production of sebum and relieves inflammation.

- White willow extract is a source of natural salicylic acid and provides astringent, anti-inflammatory, and pore tightening effect.

- Lecithin and wheat proteins smooth your skin and improve its barrier functions.

Exfoliator Cream for All Skin Types

The exfoliator contains polymeric granules to carefully cleanse your skin and exfoliate dead skin cells. Makes skin soft, silky, and perfectly ready for further treatment.

- The ball-shaped granules have no sharp edges and give no damage even to the most sensitive skin.

- Aloe Vera extract and wheat protein complex reduce inflammation, improve blood circulation, stimulate regeneration and immune processes, and moisturize your skin.

Toning by skin type

PRIME Tonic for Combination and Oily Skin

Perfect daily care for greasy skin. Helps preserve natural hydration of the skin and gives the fresh feeling of comfort.

- β -1,3-glucan enhances natural regeneration process and resistance to microorganisms.
- Pro-vitamin B5, chamomile extract and zinc salts balance sebaceous activity and have anti-inflammatory, cicatrizing, and soothing effect.

PRIME Tonic for Sensitive Skin

Soft and careful treatment. Perfect for reactive skin and broken vessels. Your skin is soft, tender, and well moisturized.

- D-Panthenol helps maintain normal sensitivity threshold of your skin and relieve irritation.
- Hesperidin prevents vascular networks from forming.

- β -1,3-glucan enhances natural protective resistance properties, allantoin efficiently moisturizes your skin.
- Calendula extract has a soothing and anti-inflammatory effect.

PRIME Tonic for Mature Skin

This alcohol-free cleansing tonic boosts the production of collagen and elastin, enhancing the energy of cells. It leaves your skin supple and soft. It is a perfect finishing step of makeup removal.

β -1,3- glucan stimulates regeneration of skin.

Allantoin moisturizes skin, and carnitine enhances the cells energy.

Oily Home Tonic with Fruit Acids

For oily skin prone to rashes.

• Fruits acids stimulate regeneration of epidermal layer and relieve hyperkeratosis. They prevent pores from clogging, reduce the number of comedones, subdermic inflammations and acne.

• β -1,3-glucan enhances natural regeneration process and resistance to microorganisms.

• Chamomile, calendula and licorice extracts soothe skin and remove inflammation.

AzeLine Tonic with Azelaic Acid

This tonic has been specifically designed for oily and troubled skin as an anti-acne formula. It restores pH balance and cellular immunity. Provides mattifying effect, doesn't tighten skin, brings sensation of freshness.

Use once a day after washing, don't apply to eye skin.

• Azelaic acid interferes with the main pathogenic occurrences of acne, provides non-comedogenic, anti-microbic, anti-inflammatory and anti-oxidant effects, decreases post-inflammatory pigmentation.

• White willow extract contains salicin (10%), flavonoids, ascorbic acid and tanning agents. It provides long-term strong anti-inflammatory, antibacterial, antioxidant and regenerative effect. Tightens pores.

• β -1,3- glucan restores skin immunity.

• Arginine enhances regeneration and stimulates metabolic activity of cells.

• D-panthenol has aseptic, anti-inflammatory and soothing effect.

General Care by skin type

Intense care for normal and combination skin

COURAGE Day Cream

This cream has light gel texture, perfectly spreads on skin, doesn't leave oily sheen. It effectively moisturizes your skin and leaves a feeling of comfort for the whole day. Can be used as a foundation primer.

Hyaluronic acid and natural moisturizing factor components replenish your skin with moisture. Phosphatidylcholine restores protective properties of skin, rehydrates and normalizes sebaceous gland function.

Camomile extract soothes and softens skin.

Vitamins E and F provide anti-oxidant protection, balance the lipidic contents in skin and fortify its barrier properties.

COURAGE Night cream

The cream has balanced proportion of nourishing and moisturizing agents. It regulates the regeneration processes in your skin during the night, fights the marks of fatigue, rejuvenates skin and improves complexion.

β -1,3- glucan enhances natural regeneration and activates self-regulation mechanism.

Vitamins E and F provide anti-oxidant protection and protection from damage caused by free radicals.

Hyaluronic acid and natural moisturizing factor components restore the hydration level of your skin.

Phosphatidylcholine restores the resistance barrier of the epidermis and normalizes sebaceous gland function.

Immunomodulating complex for dry to normal skin

LADY N Day Cream

Cream with ideal combination of plant oils, absorbs instantly and leaves your skin mattified. Nourishes, moisturizes, intensely protects your skin against negative exposures. Can be used as a foundation primer.

β -1,3-glucan complex with vitamin A and wheat germ oil activate renewal of the outer layers of skin cells, relieve hypersensitivity and enhance natural protection.

Phospholipids embed into the damaged areas and restore the resisting barrier, comfort pathological sensitivity and normalize the condition of your skin.

Calendula extract has a gentle anti-inflammatory and regeneration effect.

LADY N Night Cream

For skin regeneration during night time. The cream has a lifting effect, it tightens and firms your skin. In the morning, your skin looks fresh and rejuvenated.

β -1,3- glucan, vitamin A, and wheat germ oil stimulate metabolism in your skin, accelerate cells division, boost collagen synthesis and normalize skin immunity.

Glycolipids and lecithin restore the protection barrier of the skin, prevent dryness and flaking.

Healing wheat germ, avocado, egg and soybean oils soften, moisturize and nourish your skin.

Stimulating complex for dry and demanding skin

The nourishing Prestige creams are enriched with natural essential oils to replenish the cutaneous grease, to enhance the skin barrier properties, and to make your skin soft and supple. Prestige creams stimulate regeneration and renewal.

PRESTIGE Day Cream

All-day intense nourishing, moisturizing, and protection.

Healing shea oil, which contains Vitamin E and serves as a natural sunscreen, provides reliable protection from damage caused by UV-rays and free radicals.

Coenzyme Q10, wheat germ oil, and phytosterols stimulate regeneration and collagen synthesis and have anti-age effect.

β -1,3-glucan activates regeneration processes in your skin and increases the effect of all the active agents.

The cream smoothes and reduces wrinkles, and prevents new wrinkles from forming.

PRESTIGE Night Cream

With age, your skin becomes dryer and more demanding. Rich cream with high concentration of essential oils – shea, wheat germ, egg, and olive oils – is designed to replenish your skin with skin lipids. The cream induces intense skin regeneration at night. Coenzyme Q10 energizes your skin, and makes metabolic processes run fast and smooth, like before. Enhanced collagen synthesis makes your skin look smooth and firm. β -1,3-glucan intensifies the reparatory processes in your skin and fortifies its protection barrier.

General Care by skin type

For oily skin

Oily Home Bioretinol Cream

This new formula is ideal for everyday care for oily and troubled skin. Its light foundation absorbs instantly, moisturizes and leaves your skin mattified.

Bioretinol is an extract of *BIDENS PILOSA* plant which has all healing properties of retinol. It has strong regeneration, healing and anti-inflammatory effect, normalizes sebaceous gland function, tightens pores and improves the tone of your skin.

Cottonseed and flaxseed oils enriched with Omega-3 fatty acids restore hydro-lipid balance, enhance protective properties of skin, moisturize and relieve hypersensitivity.

Nimtree extract is a natural antiseptic, it provides antibacterial and healing effect without scarring.

β -1,3-glucan, Vitamins E and F have anti-inflammatory and antioxidant effect and enhance skin immunity.

For oily skin prone to rashes

AzeLine Correction Cream

Azelaic acid 20% cream provides effective acne treatment. Easily absorbed, leaves no white film. Provides mattifying effect similar to silk face powder.

- Azelaic acid interferes with the main pathogenic occurrences of acne; it provides non-comedogenic, anti-microbial, anti-inflammatory and anti-oxidant effects, and fights post-inflammatory pigmentation.
- Membrane lipids and Vitamin F strengthen lipidic protection barrier of your skin and relieve hypersensitivity.
- CO₂ wheat extract contains a combination of plant-based ceramides and polyunsaturated fatty acids; it restores barrier skin properties and provides strong anti-inflammatory, antioxidant and moisturizing effect.
- White willow extract contains salicin (10%), flavonoids, ascorbic acid, and tanning agents. It provides long-term strong anti-inflammatory, antibacterial, antioxidant and regenerative effect. Minimizes pores.
- β -1,3-glucan restores cellular immunity, stimulates phagocytic activity of protection cells.
- Licorice extract provides anti-inflammatory effect, comforts pathological sensitivity, and fights stress.

For Men

Master Aftershave Balm for Men

One bottle of MASTER balm will replace all the moisturizers, anti-stress and rejuvenating products you have on your bathroom shelf. Perfect for sensitive skin. Normalizes the water balance and soothes nicks and breakouts.

This innovation by Arcadia Cosmetics Lab provides skin treatment by stimulation of nerve endings.

- Neutrazen is a peptide, which suppresses the production of inflammatory mediators, regulates neurogenic irritation on skin, and helps normalize the sensitivity barrier of your skin. Corrects red skin.
- D-Panthenol soothes, nourishes, and softens your skin, and promotes regeneration.
- A natural polysaccharide immunomodulator β -1,3-glucan enhances natural protection from UV radiation and resistance to microorganisms.
- Phospholipids and a complex of vitamins fortify the resisting barrier of the skin and restore skin's natural moisture.

For daily after-shave care at home.

Regenerating complex for aging skin

Placenta extract, an essential ingredient of PLAcet series, acts as a powerful regulator for immune, metabolic, and energy processes. A biologically active complex in PLAcet cosmetic series, balanced as appropriate for a human body, has a potent anti-inflammatory and regenerating effect, which makes it indispensable for ageing and stressed skin.

PLAcet series is most recommended:

after 35, 1 or 2 courses of treatment each year, and after 45 to 50, as a regular basic treatment.

PLAcet Normal Skin Cream

The rich cream base nourishes and rehydrates your skin. The cream absorbs quickly and leaves your skin mattified.

- The cedar nut and wheat germ oils have high contents of essential acids and involve in metabolic processes.

- The membrane lipids, used as emulsifiers, restore and enhance the protective properties of the epidermis and retain moist.

- Allantoin and calendula extract moisturize and soothe your skin.

PLAcet Dry and Demanding Skin Treatment Cream

The cream helps restore the impaired lipidic balance of dry and demanding skin.

- Coenzyme Q10 and carnitine improve cellular energy processes and the absorption of the placenta active components.

- She oil is rich in unsaponifiables and activates regeneration of the ageing skin.

- Vitamin E and Q10 coenzyme maximizes the anti-oxidant properties of placenta extract.

- Licorice extract soothes and softens your skin and relieves discomfort.

AViTage Cream with Bio-Retinol

AViTage Cream enriched with bioactive plant components is ideal even for most sensitive skin. Activates regeneration and rejuvenation processes on cellular level. Tightens and firms your skin.

Bioretinol is an extract of BIDENS PILOSA plant which has all healing properties of Vitamin A. It has strong regeneration and rejuvenation effect. It improves tone and texture of your skin and has anti-aging effect.

Wheat germ, cottonseed and flaxseed oils enriched with Omega-3 fatty acids nourish and moisturize skin, enhance its protective properties, prevent dryness and flaking.

Ginkgo biloba extract is a powerful antioxidant which protects your skin from damage caused by free radicals. It effectively fights aging and removes marks of photoaging.

Beta-glucan normalizes immune and metabolic processes and protects skin from stress.

Wrinkle correction

Botef Cream

Correction of fine lines

Argireline is the active ingredient of the cream. It is similar to the botulinum toxin active center yet it provides a more delicate effect and does not cause irreversible 'palsy' of nerve endings as botulinum toxin does. Argireline slows down the conduction of nerve impulse and gently relaxes muscles. When muscle fiber is relaxed, the ingredients of the cream penetrate into the skin more intensely to smooth mimic wrinkles and stimulate the rejuvenating processes.

- Coenzyme Q10 contributes to skin regeneration and enhances production of collagen.
- Vitamin E fights skin ageing and provides antioxidant effect.

- β -1,3-glucan activates the repair processes, stimulates collagen synthesis and growth of young epidermal cells, and reduces the UV effect.
- Wheat proteins normalize the natural water balance, nourish the skin, and restore its lipidic barrier.

Botulong Cream

Correction of deep wrinkles

The cream acts on the cellular level; it restores the structure of your skin and decreases conduction of the nerve impulse by gently relaxing the muscles. Cream active ingredients provide lifting effect, improve facial contours, moisturize and nourish your skin.

- Palmitoyl wheat proteins enhance the synthesis of the new fibers of collagen and elastin and ensure their proper structures; the most effect is achieved alongside muscle relaxation. This helps to correct deep wrinkles and slow down skin ageing.
- Phytosqualane is a phytogetic ingredient, which has natural affinity to skin, it soothes the skin, enhances its protective properties, and increases resistance against UV exposures.
- β -1,3-glucan and Vitamins E & F stimulate the renewal of the outer layers of the skin, collagen and elastin synthesis, and restore the lipidic barrier.
- Wheat germ oil and avocado oil soften, moisturize and nourish your skin.

Bio-DMAE lifting series

DMAE is a natural precursor of acetylcholine, which is essential for muscle work and tone. The integrated rejuvenating effect is achieved through the DMAE's simultaneous action in several directions:

- it improves skin regeneration and increases the muscle tone
- it makes your skin firm, smooth, and silky
- it corrects the face oval
- it gives your face fresh complexion
- it breaks and removes toxins and wastes from the body, and increases cell life.

The preparations in this series have an instant and long-lasting lifting effect by acting both on the skin surface and in its deeper layers.

Lifting Cream with Bio-DMAE

Silky cream base gives you instant feeling of comfort. Despite its light texture, the cream is suitable even for very dry skin. It makes your skin matt and velvet-soft.

- Essential shea and wheat germ oils activate regeneration.
- Lecithin improves skin barrier properties. Licorice extract and Vitamins A and E have a visible rejuvenating effect.

The cream improves the skin's structure and makes it healthy, smooth and shiny again.

You can use the cream as a foundation primer and for day and night treatment. Perfect solution for tired and stressed out skin.

Express Lifting Gel with Bio-DMAE

Chitosan-based light gel provides instant lifting effect, quickly absorbs, doesn't leave sticky sensation.

Ginkgo biloba extract fortifies vascular walls, improves microcirculation and relieves oedema.

Low-concentration glycol acid improves texture and complexion of your skin, rehydrates, normalizes barrier properties and pH of your skin, moisturizes it.

For daily care for combined and oily skin.

Can be used as a night cream serum for dry skin.

Prevents spider veins.

Cosmetology has long used DMAE. Normally, it is synthetic DMAE, but there is also a plant-extracted analogue. The plant-extracted DMAE is compatible to your skin and is therefore more adjusted to human physiology and nonallergenic.

UpGrade peptide series

According to the telomerase theory of ageing, to make our skin look young for as long as possible, we need to stabilize the number of cell divisions and to enhance the synthesis of collagen along with the strength of dermal-epidermal junction.

All the creams in the UpGrade series contain carnosine, a dipeptide, which initiates the ageing process as its synthesis in the body starts to decrease. The unique ability of carnosine to prevent malfunction of cells makes your skin look much better than your calendar age would suggest it should.

UpGrade series

- Membrane lipids, Vitamins E & F active complex balances the protection barrier of your skin and prevents lipids from oxidation.
- β -1,3-glucan increases the synthesis of the insufficient products in your skin and stimulates its renewal.
- Wheat germ, soybean, avocado and shea oils are involved in metabolic processes and provide a regenerating, anti-oxidant and anti-inflammatory effect.

UpGrade 30+ Cream

Intensive prevention of first signs of ageing.

- Renovage® peptide complex fights stress and delays aging by increasing the life time of cells by 1/3.
- Artemia extract has an energizing effect and protects DNA from damage.
- Carnosine prevents the formation of protein waste products.
- Hyaluronic acid and natural moisturizers rehydrate your skin.

UpGrade 40+ Cream

Intensive prevention and correction of sagging skin. UpGrade 40+ Cream smoothes and reduces wrinkles, and prevents new wrinkles from forming.

- Idealift® peptide complex enhances the production of elastin and increases "gravity control".

- Arjuna extract boosts collagen synthesis, ensures its proper structure, and has a visible lifting effect.
- Carnosine releases toxins by activating protein-degrading enzymes in your skin.

UpGrade 49+ Cream

Intensive prevention and correction of ageing signs.

- ChroNoline® peptide complex restores strong dermal-epidermal junction.
- Cimicifuga extract, rich in phytoestrogens, improves low hormonal levels in your skin.
- Carnosine extends the life span of skin cells; it helps scavenge damaged proteins and prevents age-related skin pigmentation.
- Palmitoyl wheat proteins enhance the synthesis of the new fibers of collagen and elastin and ensure their proper structures.

UbeWhite brightening

The even skin tone is one of the primary signs of youth. Sadly, our complexion cannot stay perfect forever. The unwanted pigmentation reminds us of our age and the stress we lived through.

You can bring back the perfect tone to your skin and the blush of youth to yourself.

The products in this series fight and prevent hyperpigmentation efficiently, yet delicately. They will perfect your skin complexion and make your face glow again.

UbeWhite Day Cream

Light biocorrector cream based on lamellar emulsion with daily protection against UV exposures. Effective formula for prophylactics and correction of all kinds of hypermelanosis.

Boerhavia diffusa and curcuma root extracts and ferulic acid prevent formation of unwanted pigmentation at all stages and protect skin against UV exposures.

Hyaluronic acid moisturizes and brings long-lasting comfort effect.

Vitamins E and F have antioxidant effect, enhance protective properties of skin and stimulate metabolic processes.

Membrane lipids relieve hypersensitivity.

The cream has gentle texture, instantly absorbs, doesn't leave sticky sensation and makes your skin fresh and radiant. For everyday care.

UbeWhite Night Cream

Cream with soft and silky texture. Specifically designed for night care for photodamaged skin and skin with unwanted pigmentation.

Chia seed oil enriched with polyunsaturated fatty acids prevents forming of pigmentation.

Curcuma root extract and arbutin lighten skin.

Carnosine and Celldetox scavenge damaged proteins.

Membrane lipids and beta-glucan stimulate self-regeneration of skin.

This cream activates detox processes, removes waste and toxins, can be used for aged skin treatment. It improves complexion of your skin and makes it radiant! For everyday care.

Tone alignment

Your Grace Cream for Broken Capillaries

Light cream for thin, sensitive skin, prone to redness and broken (dilated) capillaries. The cream has an intense moisturizing, anti-inflammatory and antioxidant effect. Daily use shall improve the quality and appearance of your skin, its tone, elasticity, and texture, and relieve abnormal sensitivity.

- Hesperidin strengthens the walls of your blood vessels, decreases vascular permeability, and normalizes capillary blood flow.
- D-Panthenol and licorice extract soothe and comfort hypersensitive skin.
- Vitamin E protects your skin against harmful UV exposures.
- Membrane lipids improve protective properties of your skin and prevent evaporation of water.

This cream is also very special with the rich and long-lasting tactile sensations, which the cream brings, when applied.

Veil Cover BB Cream

tinted complexion perfecter for normal skin

The pigment in the Veil Cover BB Cream is encapsulated in tiny bio-degradable capsules to avoid contact with the other components of the cream until it is applied. It adapts to match your unique complexion, so you do not have to worry about which cream tone to choose; a flawless everyday make-up foundation. Veil Cover BB Cream is your perfectly moisturized slightly tinted skin.

- Membrane lipids and a combination of active substances (β -1,3-glucan, Vitamins A & E, and wheat germ oil) provide an immunomodulation and anti-oxidant effect, slow down ageing processes, improve the lipid and water balance in your skin.
- Calendula extract has a soft anti-inflammatory effect.

This light texture cream comfortably distributes on your face. Ideal for sensitive skin.

Eye Skin series

Total Care for Eye Skin

Our eyelids give away all we do, like a mirror. Eyelid skin is very sensitive and demands special care. Stress, fatigue, unhealthy diet, and many other factors widely affect our eye skin. Our eyelid area deceives us by showing the signs of ageing first.

Arcadia offers you the products to make your eye appeal and charm last.

Eye Gel

Unique formula of this light and ethereal gel restores tonicity and elasticity of skin after the first use; it moisturizes skin, smoothes small wrinkles and reduces swelling. It is ideal for everyday care or as a foundation primer.

- Horse chestnut extract improves microcirculation and together with arbutin lightens dark circles under the eyes and improves the skin tone.
- β -1,3-glucan normalizes natural protection of skin and improves blood supply.
- D-panthenol and licorice extract have anti-inflammatory and soothing effect and protect your skin against the environment.

- Vitamins F and E nourish eye skin and have regeneration effect.
- Liposomes are responsible for delivery of active ingredients into deep layers of skin.

Supportive Care Eye Cream

This cream is designed for special care for tender and sensitive eye skin. Nourishes, moisturizes, speeds up regeneration processes, significantly postpones first signs of aging.

- Horse chestnut extract and hesperidin improve microcirculation and lymph efflux, strengthen vascular walls and significantly improve the tone of eye skin.
- Phytosqualane is a phytogenic ingredient which enhances protective properties of skin, increases its resistance to UV exposures, speeds up regeneration processes.
- Wheat germ oil has antioxidant and anti-inflammatory effect and fights skin aging.

Specialty Care Eye Cream

The cream is designed to fight ageing signs and congestion in the eyelid area (dark circles, puffiness). The cream nourishes, tightens and tones the eye skin. It minimizes wrinkles and prevents new ones.

- The peptide-protein complex rejuvenates your eyelid skin, prevents dark pigmentation, and balances tissue respiration processes.
- Stabilized hesperidin raises vascular tone and reduces vascular brittleness and permeability, and improves skin drainage properties. It has anti-oxidant, anti-inflammatory, and anti-swelling effect, and soothes pathological hypersensitivity.
- Shea oil softens, moisturizes and nourishes your skin, and slows down ageing processes.

SERUMS

T-Mate Serum

Gallant care for oily and combination skin, rich in active agents.

- Hyaluronic acid rehydrates, moisturizes and protects your skin.
- β -1,3-glucan is a gentle immunomodulator; it stimulates skin regeneration and increases its resistance to microorganisms.
- E & F Vitamin complex, pro-Vitamin B5, and chamomile and licorice extracts have anti-inflammatory and regenerating effect.
- Organic zinc salts act as antiseptics, minimize pores, and soothe your skin.

T-Mate Serum has good sebostatic effect. Your skin looks ivory, nourished, and healthy.

Sensory Serum

The product relieves skin hypersensitivity, improves vascular condition and immune function. This innovation by Arcadia Cosmetics Lab provides skin treatment by stimulation of nerve endings. The main active ingredient of the serum is neutrazen, a palmitoyl tripeptide.

- Neutrazen helps maintain normal sensitivity threshold of your skin, soothes the skin and

eliminates redness, it also reduces vascular permeability and inflammation.

- Phyto-placenta regulates immune system, metabolism and energy processes, and has anti-oxidant effect.
- Hyaluronic acid normalizes the water balance of your skin.
- β -1,3-glucan stimulates skin renewal.
- Licorice extract soothes your skin and improves its tone.

The serum gives you an exquisite feeling of comfort, when applied.

Light Age Serum

Special care for mature and demanding skin. Light Age Serum provides an anti-stress and lifting effect, and reduces wrinkles.

- Carnosine increases the life cycle of the skin cells and prevents pigmentation.
- Coenzyme Q10 and carnitine re-energize the skin cells and boost the synthesis of collagen.
- β -1,3-glucan balances the skin immune processes and stimulates skin renewal.
- Licorice and horse chestnut extracts act as anti-inflammatories and fortify capillary walls.

- Kojic acid whitens pigmentation spots and refines the skin tone.

Moisturizing Serum

Intensive moisturizer

This fast absorbing serum delivers the moisture to your skin and provides lifting effect.

- HYDRIAM® is a polysaccharide of marine origin (analogue of dermal glycosaminoglycan), which forms a permeable protection film to bind water and retain it on the skin surface; it also provides an instant lifting effect.
- Hyaluronic acid and natural moisturizing factor components replenish your skin with moisture and improve the moist-retention properties of your skin.
- Liposomes restore the lipidic barrier and prevent evaporation of moisture from your skin.
- Horse chestnut extract fortifies capillary walls and stimulates blood circulation; it improves metabolism in skin cells and reduces swelling.
- D-Panthenol (pro-Vitamin B5) regenerates, nourishes, smoothes your skin, and stimulates metabolic and regulatory processes.

Active Complex

Edel Detox Active Complex

Intense effect of this formula is based on cells' adaptation to stress. Detox, or removal of toxins, restores natural complexion and elasticity of skin.

- Candida saitoana extract activates natural cleansing of skin cells.
- Edelweiss stem cells have strong antioxidant effect, scavenge damaged proteins and stimulate "correct assembling" of collagen and elastin fibers.
- Carnosine extends the lifespan of skin cells; removes protein waste and prevents age-related skin pigmentation.

A course of treatment improves tone and texture of skin, smoothes and reduces wrinkles and prevents new wrinkles from forming.

Hi Hyal Active Complex

Hi Hyal is an injection-free bio-revitalization product. This unique cosmetic preparation uses several ways of moisturizing simultaneously.

- High-molecular hyaluronic acid intensively moisturizes the outer layers of skin and makes your skin soft and silky.
- Low molecular hyaluronan, myristyl tripeptide and exopolysaccharide stimulate production of body's own hyaluronic acid in the skin and provide deep three-way moisturizing.
- Polysaccharides of marine proteobacteria create the ideal environment for holding in water.
- Myristyl tripeptid strengthens collagen fibers and restores elasticity and firmness of your skin. Lecithin repairs the skin protective barrier and reinforces the moisturizing effect.

Multi-acid Cosmetic Fluid

This fantastic bouquet of ferulic, caffeic, malic and tartaric acids instantly makes your skin porcelain, radiant, soft and silky as if you had had professional treatment.

- Ferulic acid easily removes marks of fatigue, evens and energizes your skin and protects it against UV exposures. Effectively restores photodamaged skin.
- Caffeic, malic and tartaric acids complex normalizes barrier properties and water balance of skin and enhances cells energy.

A course of treatment is recommended for anti-aging care and care for hyperpigmented skin. It enhances local immunity, improves barrier properties of skin and has antioxidant effect.

MASKS

Antistress Mask
 Cream mask with kaolin instantly removes marks of stress and fatigue, energizes skin and brings sensation of comfort and radiance.

- Lecithin replenishes your skin with skin lipids, restores barrier properties, softens skin and relieves hypersensitivity.
- Kaolin intensely cleanses your skin and improves its texture and complexion.
- Licorice extract enhances regeneration, has anti-inflammatory effect and removes waste and toxins.
- Rose oil fortifies capillary walls, removes redness and prevents formation of couperose.

Oily Home Biosulfur Mask for Oily Skin
 Kaolin-based cream mask contains a balanced complex of active ingredients which provide safe and intense care for problem and oily skin. It deeply cleanses the skin, dries inflammations, tightens pores and soothes skin.

- Biosulfur balances the function of sebaceous glands, adsorbs skin fat and provides soft peeling action.
- Zinc oxide has anti-inflammatory and antioxidant effect.
- Membrane lipids enhance protective lipid barrier and restore the moisture level.

Gel Mask with Rose Oil
 Provides soothing, regenerating and anti-inflammatory effect. The skin becomes soft, elastic, and silky.

- Rose oil reduces the skin abnormal sensitivity. This aromatherapy product gently influences the CNS and provides a calming and relaxing effect.
- Hyaluronic acid stimulates intense moisturizing and lifting.

PLAcet Rejuvenating Mask
 Gentle lifting effect and instant moisturizing. Placenta extract, a concentrated essential ingredient of the mask, combined with moisture-retaining components have a powerful rejuvenating and regenerating effect. The mask enhances turgor, improves texture and tone of your skin.

Apply PLAcet Mask 1 or 2 times a week.

Native hyaluronic acid enhances moisturizing and rejuvenating properties of placenta extract and rehydrates your skin.

D-panthenol, β -1,3-glucan and carnitine have stimulating and antioxidant effect.

White birch extract enhances regeneration and improves the tone of your skin.

Milk Mask with Fruit Acids and Wood Ear Extract

Milk Mask is designed for gentle fruit peeling at home. It has exfoliating and stimulating effect. Instant lifting effect. Intensely moisturizes and improves tone and texture of skin. This new formula has a component which prevents couperose.

Fruits acids stimulate regeneration of epidermal layer and relieve hyperkeratosis. They prevent pores from clogging, reduce the number of comedones, subdermic inflammations and acne. Moisturize skin and provide instant lifting effect.

Wood Ear Extract removes congestion lumps from capillaries, improves microcirculation, restores skin immunity, rehydrates and has powerful antioxidant effect.

Beta-glucan, licorice and calendula extracts have regeneration and soothing effect and enhance natural protection of skin.

Cream Mask "Ivory" with Fruit Acids

Cream mask with dense texture which improves skin tone and has strong rejuvenating effect. Fruit acids gently stimulate natural rejuvenation of skin.

Stabilized vitamin C wakes up regeneration, provides antioxidant protection and gentle anti-pigment effect.

Arbutin enhanced with fruit acids and Vitamin C has strong whitening effect.

Coenzyme Q10 and magnesium sulfate restore skin energy and rejuvenate.

Membrane lipids repair the resistance barrier of the epidermis and reduce hypersensitivity.

LymiWhite Mask

This creamy mask has a feather-light tender texture. It is designed for comprehensive care for photo-damaged and tired skin, and hyperpigmentation.

- Turmeric extract lightens the skin tone.
- Ferulic acid moisturizes the skin and evens its tone; also provides anti-inflammatory effect.
- Celldetox and carnosine stimulate detoxification and extend the life cycle of the skin cells.
- Rice bran and wheat germ essential oils and Vitamin E are rich in anti-oxidants and protect your skin from free radicals and ageing.
- Lecithin, hyaluronic acid, and Vitamin F restore the lipids and water balance.

Recommended use: 1 or 2 times weekly. This mask will return elasticity to your skin and make the signs of fatigue disappear. Your skin looks refreshed and revitalized, as if you just walked out from a spa center. Lymi means light, glow, and tenderness!

Sun Protection Creams

Our body needs solar UV. It activates synthesis of Vitamin D in skin which regulates calcium cycling and defines the condition of musculoskeletal tissue. Yet excessive UV exposure has negative effect on skin.

Plainair series allows to control the amount of UV radiation affecting the skin. Choose the cream with the appropriate sun protection factor (SPF) depending on the result you want to achieve and your type of skin.

All Plainair series creams can be used for sensitive child skin care.

Moisturizing Day Cream SPF-10

Intensely protects against UVA-UVB radiation due to the new generation solar filters.

Ethereal emulsion quickly absorbs and effectively moisturizes skin during the day.

Suitable for hypersensitive skin, recommended for daily care for skin prone to hyperpigmentation

Sun Protection Creams

Contain new generation UVA and UVB filters with various SPFs.

These creams have gentle structure, easily absorb, don't leave white film and sticky sensation. They contain cosmetic silicones which ensure even spreading of active ingredients and make the cream water-resistant.

- SPF 16 - sun protection cream - for fair skin in first days of sunbathing.
- SPF 30 - sun protection cream - for fair and sensitive skin subject to pigmentation. Also recommended for prophylactics of pigmentation after traumatic cosmetic procedures. Up to 98% protection from UV exposure.

All Plainair series creams contain protection biocomplex which enhances regenerating process in skin after sun stress and fights photo-ageing.

Plainair After-Sun Cream (for Body)

This cream has anti-inflammatory and regeneration effect, reduces or relieves solar burns and cools sun-bathed skin. Decreases the risk of remote consequences caused by UV exposure and prevents photo-aging. Prolongs and fixes tanning effect.

Complex of natural oils (cedar, soy and wheat germ) together with membrane lipids soften and nourish tanned skin, enhance its barrier properties and moisturize it.

β -1,3-glucan protects immune cells (macrophages) against damages caused by UV exposures and enhances regenerating processes of skin. It stimulates immune system and reduces inflammation.

Vitamin E provides antioxidant effect which significantly decreases the risk of remote consequences caused by UV exposure, removes inflammation caused by sunbathing and reduces solar burn.

Calendula and licorice extracts soothe skin and remove inflammation.

Can be used for everyday body care, easily absorbs, doesn't leave oily sheen.

HAND series

Hand Cream

For sensitive hand skin care. The cream provides essential protection to the skin of your hands after frequent contact with water or exposure to aggressive environment, and helps treat skin exfoliation and atopic eczema. The cream cures crevices, and nourishes and moisturizes your skin by restoring the lipidic barrier.

- Coenzyme Q10 re-energize the skin cells and boost the synthesis of collagen.
- D-Panthenol has an anti-inflammatory effect, retains water, and makes your skin soft and firm.
- Aloe Vera and licorice extracts gently soothe and rehydrate your skin.
- Rich oil combination softens the upper layers of your skin, protects your skin from dehydration, and provides a long-lasting comfort.

Recommended for evening hand care. Can be used at night as a hand mask, with cotton gloves.

Instant Care Hand Cream

The cream absorbs instantly and leaves no greasy sensation. Perfect moisturizer. For soft and silky hand skin. Use as many times a day as you like.

- Lecithin and β -1,3-glucan normalize the immune balance and stimulate the repair of the lipid barrier of your skin.
- D-Panthenol helps maintain normal sensitivity threshold and relieve skin irritation.
- Membrane lipids retain moist in your skin.

The nice bottle with a dispenser cap takes little space in your handbag or on your desk.
